

MODEL RAILROAD CLUB

# COME JOIN A MODEL RAILROAD CLUB

The Wasatch N-Scale Model Railroad Club is looking for new members. Join us to enjoy the fellowship of other model railroad enthusiasts while building a high quality N-Scale modular layout. Our modules generally follow N-TRAK standards with four notable differences:

- **Use of code 55 rail**
- **46 inch layout height**
- **Two track main**
- **Operation from the Front of the layout**

In addition, our unique end loop design allows us continuous operation as well as accommodating modules of nearly any length or shape. The block system we use allows us to use both DC and DCC controls for nearly all locomotive types.

Our club is looking for interested modelers of all skill levels. Dues are only \$30 per year and we meet the last Thursday of each month. If you're just starting out or not sure where to begin, we can help! All are welcome, and you don't have to be a member to attend club meetings. We look forward to hearing from you!
